2800 Series 2" LED AlphaNumeric

Alphanumeric 120VAC **RED** LED Display

Model # AF-2800-978

List Price \$ 3,250.00 (not including freight)

To operate the marquee, setup marquee to your preferred address, baud rate and RS232 wiring. Program your stored messages for each input. Baud rate is user configurable for 1200/2400/9600/19200. Factory default is 19200. Customer wires 120VAC outputs to internal screw terminal inputs for up to 32 messages. Input activation will display stored message for that associated input. If more than four inputs are activated, unit will page through all active message alarms. Models operate using 120VAC power @ less than 1 amp.

Series is available in a NEMA12 steel package.

NEMA 12 units are constructed from rugged 16 gauge steel with 1/4" thick acrylic lenses and mount via 1/4" eye bolts. Models offer internal screw terminal connection for customer to punch holes in 16 gauge steel housing and run conduit/wire into the cabinet to strip and screw terminate. Customer responsible for drilling holes for running power and data.

Cabinet Dimensions: 33.25" W by 16.885" T by 5" D
115/130 Vac, 50/60 Hz, 0 C to 50 C
LED's in red, 100,000 hours (11.4 years)
32 messages, 13 characters per message
RS-232 for message programming
19200 switch selectable
Upper case = A to Z, Lower case = a to z
Numeric = 0 to 9, ASCII punctuation
Special character set = ex.: #, \$, %, *, etc.

- RS232 Message Programming
- 4 Lines Of 2" (view up to 100')
- Single Color RED (LED rating 100,000 Hrs)
- 13 Characters Wide Static
- NEMA12

Unit is single sided viewing. Please refer to manufacture for pricing on other sizes, operations, etc.

Unit using indoor bright LED. Please refer to manufacture for pricing on outdoor models if needed.

Unit is NEMA12 dust resistant painted steel. Please refer to manufacture for pricing on NEMA4 water resistant and NEMA4X stainless water and rust resistant if needed.
